TechStart

WELCOME TO TECHSTART
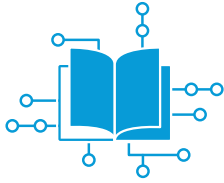

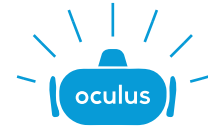

What is TechStart?

TechStart, powered by Facebook, is a nationwide initiative striving to modernize education through technology

Facebook has partnered with Arkansas to introduce a first-of-its-kind program to high schools in the state, providing students with new experiences and opportunities within the technology space

This specific partnership focuses on virtual reality technologies as well as related opportunities, such as awards and events for both teachers and students

What is the TechStart Mission?

Leverage computer science and emerging technologies to unlock opportunities for student success

What are the Key Benefits?

TechStart is comprised of 4 major components:

Exposure to emerging technologies (e.g., virtual reality) and relevant projects

Marquee events during the school year with mentorship opportunities

Award and recognition opportunities

Ongoing support from the Facebook TechStart team

How Do I Get Started?

TechStart Teacher

Please refer to the *"TechStart Teacher Starter Guide"* to get started

TechStart Student Innovator

Please refer to the *"TechStart Student Innovator Starter Guide"* to get started

Every TechStart Participant

Please refer to the *"Trailblazer Awards Guide"* to learn about award and recognition opportunities

Thank you for being a part of the TechStart community!
